CHALLENGE

To Create A New Operation Structure For A Revolutionary Health Care App

SOLUTION

Coordinated With The Leadership Team For Three Full Day Workshops

- Redesigned organization chart & addressed roles & responsibilities to each team member
- Established a weekly finance & operations meeting to ensure accountability within the organization
- Set a quarterly plan for both the company & individual priorities to ensure the company's long-term success
- Established a company dashboard to establish and monitor performance
- Assessed a set of processes to build to ensure consistency across the company
- Identified how all employees including the owner were doing activities they either were not good at or did not like. Re-assigned activities to ensure the company could maximize productivity
- Established a company vision & long term game plan on how to achieve it

RESULTS

**Design Team Improved Productivity By 32%,
Grew Revenue By 73% Within 1 Year**
